

GREVENSTEINER

GREVENSTEINER

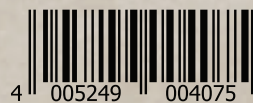

The first beer brewed by Carl and Anton Veltins was an unfiltered malty Kellerbier and was called Grevensteiner. This unfiltered country beer is brown with ruby highlights, slightly hazy with a brilliant white head. The body is rich and malty with a clean crisp slightly hoppy finish. Grevensteiner uses whole leaf hops and traditional ancient malts to recreate the true original beer of the brewery.

ABV: 5.2% | IBU: 18
