MOGUL MADNESS

STORY

Mogul Madness is brewed in honor of those that dare to ski the bumps. Anyone willing to push their legs, and especially their knees, to those limits deserves a full-flavored winter ale of distinction. Packed with four hop and four malt varieties, this beer finds a perfect balance of big piney and sweet fruit notes, making it as smooth as your next run down the moguls.

TASTING NOTES

The return of our brewers' favorite winter ale, this Rogue classic is just like you remember it: a deep amber in color, packing a complex malt bill with the addition of roasted malts to cut that winter chill. Unlike most others, this winter ale is generously hopped like an IPA giving it big piney, citrus and somewhat sweet fruit notes. What brings a smile to our brewers' faces is the perfect balance between the malts and hops; a truly delicious achievement that we're sure you'll enjoy as much as they do.
